

# Tygart Lake

## Waste Water Treatment Solution

EPC – Ltd

Onsite Wastewater Treatment Solutions

EPC has partnered with WV Department of Natural Resources to solve an existing failure of a waste water treatment plant in Tygart Lake, WV. **This system is online this week!**

EPC has over 28 years of experience in innovative environmental solutions in engineering energy efficient decentralized wastewater treatment plants.

EPC is a leading provider of innovative, patented onsite wastewater treatment plants and equipment in Israel today with over 120 successful installations in the world.

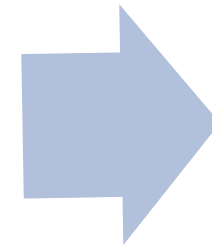

**EPC is now offering solutions in WV.**

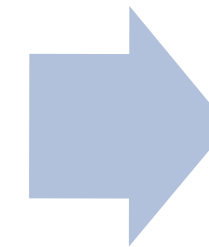

## Issue

Failing Waste Water  
Treatment Plant at  
Tygart Lake in  
Grafton WV.

## Challenge

Economic,  
Efficiency, and  
Environmental  
challenges

## Solution

EPC'S Bio-disk  
system successfully  
solved all the issues  
faced by the DNR at  
Tygart Lake

# Tygart Lake

**Old failing plant**

The EPC Bio-disk at Tygart Lake offered simplicity of function, ease of maintenance, and is environmentally pleasing. It uses an all natural process. When paired with a UV disinfection eliminates harmful chemicals and by products to the environment. This also reduces operating costs by effectively cutting the purchase of chlorine from the budget.

**EPC's Bio-disk  
solution**

---

# EPC offers solutions from Municipalities and parks to smaller home based systems

Bio Disk®

GreenFloat DAF

Bio Robi®

# EPC PRODUCTS ARE UNIQUE.

---

# 90%

Less energy  
than conventional technologies

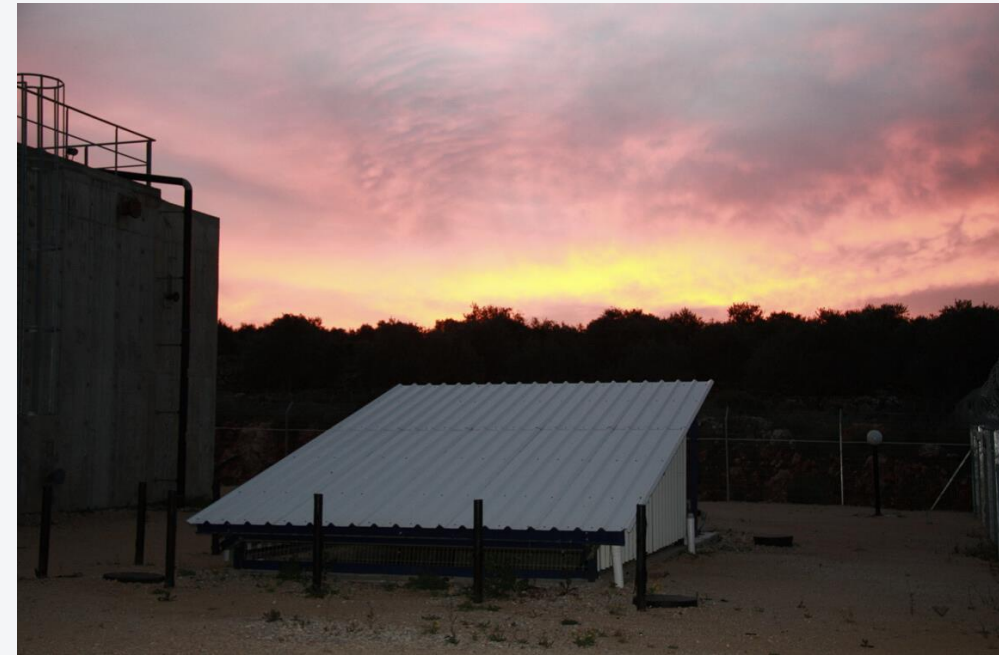

**ADVANTAGES**

100% odorless and  
chemical free

Small footprint

100% noise free

# Environmentally friendly

---

**ADVANTAGES**

A photograph of a construction site. In the foreground, there are several large, rectangular concrete tanks with circular openings on top, arranged in a row. A worker in a yellow safety vest and white hard hat is standing near one of the tanks. In the background, a large white crane is lifting a wooden frame structure. The site is surrounded by trees and a chain-link fence. A small wooden building with a green roof is visible on the right side.

thank you
