CCA Holds Spring Board Meeting in Kanawha County...

The County Commissioners' Association held their Spring Board of Directors meeting May 20-21, 2007, at the Embassy Suites in Charleston. On Sunday there was a wrap-up of the 2007 Legislative Session and a discussion of future legislative issues for the Association.

On Monday the CCA Board held its meeting and the following items were discussed: CCA committee reports and appointments, future meeting topics and dates, regional jail costs and metro government. The CCA Budget Committee met on May 11th to put together the 2007-2008 budget. Their recommendation for the 2007-2008 budget was approved by the full Board of Directors.

Wayne Faddis from VACo Risk Management Program gave an update regarding West Virginia Counties Insurance Pool. Several questions were answered and many counties have already joined the pool.

Overall the meeting was a great success and there was great participation, support and feedback. Thanks to everyone who took the time from their busy schedules to attend.

Your participation is essential to the success of our Association.

President's Perspective

By Karen Disibbio, CCAWV President

The spring board meeting of the County Commissioners' Association of West Virginia was held on May 20th and 21st at the Embassy Suites in Charleston. Our discussion on the first day recapped the recent legislative session. Much of our discussion concerned regional jail bills and noted that our Executive Director, Vivian Parsons did an excellent job at representing our association during the legislative session.

During the second day of our meeting we recognized Kanawha County Commission President, Kent Carper, for his leadership during the legislative session. Also, plans for the CCA Annual Meeting on August 4-7, 2007 were made. Many interesting topics will be presented during this meeting and I encourage all commissioners to attend.

I would like to wish all of you a happy, safe summer season. We are looking forward to seeing all of you in August at Parkersburg.

Directors' Discussion

By Vivian Parson, Executive Director

On March 29, 2007, the CCAWV Board of Directors endorsed the West Virginia Group Self-Insurance Risk Pool as a viable option for County Commissions in their pursuit to provide cost-effective property and liability coverage for their counties. We have been working with the folks from Virginia to get the word out, so that the county pool can be come a reality. At press time, seventeen counties have committed to joining to pool. There has been much information flying on both sides of this issue, so if I, or any of our CCAWV interim board representatives, can answer questions or be of any help, please give us a call...

Vivian Parsons - 345-4639/ cell 415-1608

Chuck Armentrout, Webster County Commissioner - 587-4069 (wk)

Willie Parker, Upshur County Administrator - 472-0535 (courthouse)

Reta Kight, Gilmer County Commissioner- 462-7641 (county commission)

Brad Tuckwiller, Greenbrier County Commissioner 646-8095 (cell)

Records Management & Preservation Board Grants Available...

The Records Management and Preservation Board (RMPB) has awarded \$292,457 in grant funds to twenty-two West Virginia county commissions for county records management and preservation projects through its County Records Management and Preservation Grants program. The board reviewed submissions and made its recommendations in January for projects to improve management, storage conditions, access, and preservation of public records held in several county offices. Following official letters announcing the successful grants in March, RMPB staff began conducting courthouse site visits to provide technical assistance in setting up the grant project, which officially begin with the new fiscal year July 1. Grant awards range from \$2,250 to \$36,388. Five of the twenty-two counties receiving funds are fourth-time grant applicants; three counties are third-time grant applicants; nine counties are second-time grant applicants; and five counties are first-time grant applicants. A complete list of recipients is attached.

The RMPB, with its continuing interest in addressing records storage and management issues in the court houses, announced three grant criteria in its invitation to applicants last September. The three criteria were: conduct a total records inventory and condition assessment, and develop a master records management plan for county records; remove non-records and accumulations of records having reached or exceeded required retention periods; and provide proper and improved storage of and access to permanent records or records with a required retention periods in excess of twenty-five years. The latter will include physical storage to provide proper shelving and/or archival records boxes (10"x12"x15"), and security/preservation microfilm, with a digital imaging combination for enhanced access.

Funding for the County Records Management and Preservation Program is from the filing fees collected by county clerks and deposited in the special Public Records and Preservation Revenue Account. The funds serve as an incentive to equip county officials to improve the management and conditions for the preservation of their public records. The RMPB was created by the West Virginia Legislature in 2000 to develop uniform county records management programs. Its primary focus is to establish guidelines and provide technical assistance to address the needs of the records of county governments through a uniform records management system, and to further encourage adoption of these goals through the county records grant program. In pursuit of these goals the RMPB has authorized a statewide survey and report on the current state of county records, developed rules and a County Records Management Manual for county offices, and sponsored records management workshops for county officials and staffs. The next grant cycle and priorities will be announced September 1, for the fiscal year 2008-2009.

For more information about the Records Management and Preservation Board's annual grant program or the work of the RMPB, contact Fredrick H. Armstrong, state archivist with the West Virginia State Archives, by phone at (304) 558-0230, ext. 164, by e-mail at fhamstrong@wvculture.org, or by mail at Records Management and Preservation Board, West Virginia Division of Culture and History, Building 9, 1900 Kanawha Boulevard, East, Charleston, WV 25305-0300. UPSHUR COUNTY COURTHOUSE

Upshur County's first Courthouse was completed in 1854 and was situated on the same two lots as the present one. Robert Maxwell was the architect and the building cost \$7,300.00 to construct. The Courthouse was damaged by fire three times in the first six months and saw heavy abuse during the Civil War. The remains of the building were removed in 1898 and replaced with the current Courthouse. The current Upshur County Courthouse was built in 1899 at a cost of \$37,650.00. Harrison Albright of Charleston, WV was the designer. Following a \$2.3 million dollar bequest from Judge Jack Dowell Jennings, the Upshur County Courthouse Annex was constructed in 1994. Chapman Technical Group with offices in Buckhannon and St. Albans, WV was the architect, and Breckenridge Corporation of Buckhannon, WV was the general contractor.

NACo DISASTER/TERRORISM TOOLKIT AVAILABLE

The toolkit includes a CD with software to enable good decision-making by elected officials in times of catastrophic disaster, a CD with useful preparedness documents, and a DVD entitled, "The Seven Signs of Terrorism" that is customizable for local communities. Supplies are limited. One copy per NACo member county will be mailed free of charge on request. NACo developed the kit with financial assistance from the U.S. Department of Homeland Security. Request your copy from Rocky Lopes, NACo Project Manager, Community Services, via email: rlopes@naco.org. Please be sure to include a street address where the kit can be mailed; it is not available electronically.
